Meet Midway Partnership and learn about opportunities for upcoming capital projects and concessions operations at Midway International Airport, made possible by the Midway Modernization Program (MMP).

The MMP was introduced in 2015 by Mayor Rahm Emanuel as an investment into the expansion of the security checkpoint and parking garage, and the complete modernization of dining and retail space at the airport by 2020. This work for the concessions program alone will create 250 construction jobs and 1,400 permanent new jobs and increase the total concessions area from approximately 40,000 square feet to more than 70,000 square feet.
